IS A PITIFUL STORY

Russian Recital of Causes Contributing to Their Defeat

ADMIRAL CRIMINALLY STUPID

Surviving Officers Declare that Rojstvensky's Plans, if he Had Any, Were Known Only to Himself, so That When His Flagship Sunk Demoralization Followed.

Vladivostok, By Cable.—A series of interviews with naval officers who survived the battle of the Sea of Japan has developed a most sensational story of the causes of the Russian disaster, first of all, and the complete demoralization which followed the sinking of the flagship *Kniaz Souvaroff* and wounding of Admiral Rojstvensky. It is explained that not a single officer of the fleet knew the commander-in-chief's plans. The admirals in command of the divisions knew no more than the subalterns, and had to rely only on the signals of the flagship, Admiral Nebogatoff, on whom the command devolved, had been Rojstvensky only once after the junction of their squadrons, and then only for fifteen minutes.

All the stories of extensive target practice in Madagascar, it seems, were false. During the entire voyage there practically was no training in gunnery worthy of the name and the big gun practice was confined to three shots per vessel. Ugly stories are told of the happenings at Madagascar. Some of the crews certainly were untrained in gunnery, and, exhausted by the eight months' voyage under trying moral and physical conditions, were no match for the veteran Japanese, whose marksmanship was wonderful. The Japanese concentrated their fire on one ship until she was placed out of action and then on another, thus successfully sinking the *Oryaba*, Alexander III and *Kniaz Souvaroff*. Some ships developed deplorable structural defects. The *Oryaba* sank without having a single hole below the water line. Heavy seas entered the vessel over the water line, and the water tight compartments, which were changed several times during the voyage, did not stand the strain they had been calculated to stand, and burst, flooding and heeling the vessel over until she turned turtle.

Lack of homogeneity among the ships made it impossible to manoeuvre in harmony.

The Vladimir Monomach, Admiral Oushakoff and Admiral Senyavin had to lag behind on this account, becoming easy victims.

Finally, the ammunition was exhausted after the first day's fight. Even the very morning of the battle, while the buzzing of the wireless instruments on the Russian ships showed that the Japanese scouts were communicating his dispositions to Admiral Togo, Admiral Rojstvensky continued his careless manoeuvring, and when the Japanese actually appeared the Russians were caught in an impossible formation and were attacked on the flank. Rojstvensky's position was cramped and his transports were badly placed and caused confusion. While the Japanese were training projectiles even from machine guns on the Russian ships, the latter were huddled together, blanketing each other's fire. Only the leaders of the columns could bring their guns to bear, and even those the untrained gunners fired wildly. To render matters worse, the mines and floating torpedoes sown in the paths of the Russian divisions added to the confusion. The *Borodino*, Admiral Nekhtornoff and Navarin fell victims to these obstructions.

It is a heartrending narrative, that Russia and the world should know. The sailors and officers were not altogether to blame. The main fault lay elsewhere. There were many heroes among the Russians. Captain Berk, of the *Oryaba*, committed suicide on his bridge as the ship sank, rather than save himself. There were thousands of other heroes whose names the world will never know.

Negro Fatally Slashes Attorney.

Muskogee, I. T., Special.—Following an altercation here this afternoon, a negro slashed Col. Thomas Marcum, a prominent attorney, in the abdomen, causing a fatal wound. Col. Marcum is a brother of J. B. Marcum, who was killed some time ago in a feud at Jackson, Ky.

Official Assurance.

Washington, Special.—Official assurance that the President's efforts to bring Russia and Japan together to discuss peace will be crowned with success was brought to the White House by Count Cassini, the Russian ambassador, who called by appointment, and in the name of Emperor Nicholas, formally accepted the President's "offer of good will."

The following official statement regarding the conference was issued at the White House: "Ambassador Cassini has called to express the Russian government's assent to the President's proposition, and to state that they would appoint plenipotentiaries to meet the plenipotentiaries of Japan."

Both Fast Trains Won.

New York, Special.—The first east-bound train of the Pennsylvania Railroad's new eighteen-hour service between New York and Chicago arrived in Jersey City at 9:22 a. m. Monday, three minutes ahead of schedule time. The running time of the train from Chicago to Jersey City was 17 hours and 37 minutes. The engineer of the train said, on arriving, that a short distance east of Hobart, Ind., the train covered a mile in 25 seconds.

PRESIDENT IS STILL URGING PEACE

Text of Dispatches Through Diplomatic Channels to Russia and Japan Is Made Public.

Washington, Special.—An identical note, the text of which, by authority of the President, was made public late Friday at the White House by Secretary Loeb, has been forwarded to the Governments of Russia and Japan by President Roosevelt. In the interest of humanity the President urges the warring nations to conclude peace. It is suggested by the President that the negotiations be conducted "directly and exclusively" between the belligerent nations. The note indicates the President's belief that an intermediary may not be necessary to effect conclusive negotiations, but likewise expresses the President's willingness to do all that he properly may to promote the preliminary arrangements for a time and place of meeting of representatives of the Russian and Japanese Governments.

The following is the substance of the despatches given out:

"On June 8th the following despatch was sent by the President through diplomatic channels to the Japanese and Russian Governments:

"The President feels that the time has come, when in the interest of mankind, he must endeavor to see if it is not possible to bring to an end the terrible and lamented conflict now being waged. With both Russia and Japan the United States has inherited ties of friendship and good will. It hopes for the prosperity and welfare of each, and it feels that the progress of the world is set back by the war between these two great nations. The President accordingly urges the Russian and Japanese Governments not only for their own sakes, but in the interest of the whole civilized world, to open direct negotiations for peace with one another."

MORTON TO HEAD EQUITABLE.

Retiring Secretary of the Navy Elected to the Board.

New York, Special.—Paul Morton, who retires from the secretaryship of the navy on July 1st, was elected chairman of the board of directors of the Equitable Life Assurance Society. His election marks the first and most important step in the re-organization of the society, and was followed by the tender of the resignations of President James W. Alexander, Vice President James H. Hyde, Second Vice President George E. Tamm, Third Vice President George T. Wilson, and Fourth Vice President William C. McIntyre. Mr. Morton, as explained by Senator Chauncey M. Depew, was the unanimous choice of the board of directors of the Equitable, although the meeting was not altogether harmonious. The new chairman, to further quote Senator Depew, did not receive positive assurances that he would have a "free hand as to measures and men."

Czar Thanks Rojstvensky.

St. Petersburg, By Cable.—Emperor Nicholas has cabled the following to Rojstvensky:

"From my heart I thank you and all the officers of the squadron who have honorably done their duty for your unselfish work for Russia and for me. By the will of the Almighty, success was not destined to crown your endeavors, but your boundless bravery will always be a source of pride to our country. I wish you speedy recovery. May God console you all."

(Signed) "NICHOLAS."

The peculiar wording of the message is attracting attention. The restriction of the Emperor's thanks to those honorably doing their duty is fanning ugly talk regarding the surrender of ships and the conduct of some of the crews. The messages of Admiral Rojstvensky and Captain Berk of the Russian cruiser *Almaz* did not contain any intimation of misbehavior on the part of officers or crew.

Negro Hanged in Arkansas.

Desarc, Ark., Special.—John Frasier, a negro, was hanged here Thursday for murder of Webster Southerland, a time keeper on the Seaway & Desarc Railroad last November. The killing was over a dispute about money which Frasier claimed was due him. On the gallows he claimed that the shooting was accidental.

British Squadron Coming.

Washington, Special.—The Navy Department has been advised through the British embassy of the intended visit to American waters this autumn of a squadron of British warships, consisting, as understood here, of four cruisers. The squadron will visit New York and the Annapolis. From the latter place the British is expected to come to Washington. While the Navy Department is not advised definitely of the date of the Prince's visit, it is understood that it will take place some time in October.

Preparing Public For Peace News.

St. Petersburg, By Cable.—The government is plainly preparing the public for the announcement that the Emperor has decided to conclude peace and that the negotiations have begun and that the publication of all the foreign dispatches bearing on the subject. It can be assumed that there will be no further bloodshed in Manchuria until the belligerents have decided whether it is now possible to agree on peace terms.

\$50,000 School Building.

Durham, Special.—The Durham school authorities are getting ready for the erection of a very fine high school building. This building and equipments will cost \$50,000, and the architects will be working on the plans within the next few days. The school committee has purchased a fine site on Morris and Watkins streets. The lot has a frontage of 195 feet front and runs back nearly four hundred feet, containing an acre and two-thirds. The committee first started condemnation proceedings for a lot on Chapel street, but the site purchased was secured at less cost and without litigation. At the last election the citizens voted \$50,000 for this building and it is proposed to have it ready before another commencement. The building will have a frontage of 145 feet.

Charters are granted by the Department of State to the Farmville Cotton and Tobacco Warehouse Company, of Farmville, Pitt county, capital stock \$25,000; the Hewlett-Grantham Harness Company, Wilson, \$100,000; the Washington Realty Company, of Washington, Beaufort county, \$25,000; the Graham Water and Electric Company, \$100,000 to furnish water and light to the town of that name, H. M. Milner, of Morganton, C. P. Hartwell, and M. F. Frey, of Washington, D. C., being the stockholders; the Marshall Wood Working Company, of Marshall, Madison county, to make building materials, furniture, agricultural implements, etc., \$25,000; J. J. Redwine and others, stockholders. The Aurora Publishing Company, of Shelby, \$16,000, to publish newspapers and do printing.

Attempted Suicide.

A special from Wilmington to the Charlotte Observer says: Crazy with grief and mortification because her only son, Willie Guthrie, 18 years old, with whom she lived at 213 Queen street, this city, had been locked up on a charge of highway robbery, Mrs. Fannie E. Guthrie, a widow, attempted to throw herself into Cape Fear river for the purpose of ending her life. She was restrained from carrying out her purpose by friends who ran after her and were forced to use physical strength in carrying her back home, two blocks distant. The wayward boy is one of three other young white men of this city locked up this week on charges of having figured in several hold-ups on the road to Middle Sound within the past few weeks. The evidence is regarded as conclusive and the heart-broken woman is said to have preferred death to being called upon to prove an alibi for her son. The boy is an only son and the case has excited not a little sympathy in the community.

Newbern Police Officer Shot by a Negro.

Newbern, Special.—Police Officer R. P. Montague was shot Thursday night by Isaac Farrow, colored, upon whom he was attempting to serve a warrant. Montague was shot in the right shoulder and sustained painful but not serious injury. Farrow escaped arrest, but the police hope to capture him soon.

Change in Call on Banks.

Washington, Special.—The Secretary of the Treasury announced that the payment of the second installment of the public deposits called from depository banks will not be required on July 1, the date named in the call, but may be made by the banks at any time on or before July 15. The purpose of this change in the date of payment is to separate the transfer of funds of the Treasury from the heavy payments of dividends and interest falling due on the first of July. The unpaid portion of the second installment to be paid by the banks to the Treasury is about \$12,000,000.

Work on Test Farm.

Work has begun on the test farm for truck and berries, at Willard, this having been the farm recently given to the State, and about which some complaint comes from Wilmington, that place desiring to be the location of the farm, and wishing the board of agriculture to reconsider what it has done, dispose of the farm at Willard and select one at Wilmington. It is learned that the Agricultural Department has not the power to sell the Willard farm without a special act of the Legislature.

Fell 70 Feet and Lived.

Concord, Special.—Thursday evening Mr. Morrison Fetzter, son of Mr. P. B. Fetzter, the electrical engineer at the Miami Mine, about nine miles south of here, fell down a shaft 70 feet deep and is cut and bruised considerably. It is hoped that no serious injury is the result. Dr. Young was called and as yet has not returned and his real condition is at present unknown. The report says that he is not injured very badly.

NORTH CAROLINA CROP BULLETIN

Conditions For Past Week as Given Out by the Department.

During the week ending Monday, June 10th, 1905, the weather on the whole was very favorable for agricultural interests, except that the latter part of the week was too cool for the rapid growth of crops. Although some local storms occurred on Wednesday, 7th, with hail and high winds, which damaged crops in a few counties, namely Nash, Alamance, Vance, Franklin and Warren, there was a general absence of precipitation during the week over most of the State, giving farmers an excellent and much-needed opportunity to cultivate crops and kill grass and weeds. In most of the northeastern and western counties, where the rainfall has not been excessive, the soil has become rather dry, and upland crops are beginning to need light rains. The mean temperature for the week averaged about 74 per cent, or nearly 2 degrees daily above the normal. On the 5th, 6th, and 7th the temperature was quite high, maxima above 90 degrees being generally recorded; this was the most favorable period of the week, during which crops made rapid growth; the latter portion was, however, cool enough to check growth, the temperature at night falling quite low. There was abundant sunshine everywhere during the week. The weather was especially favorable for farm work, which was pushed vigorously; farmers have generally succeeded in subduing grass and weeds, and most crops are now clean, well cultivated and in good condition. Harvesting operations and making hay progressed favorably. Material improvement in crops took place during the early portion of the week.

Though some fields are still grassy and not chopped to stands, the larger portion of the cotton crop has been placed in a state of excellent cultivation, but the crop is only doing fairly well in many counties, and is mostly late, small, and much not very healthy in color; continuous warmth is needed for best development; lice have appeared on cotton in many counties. Corn is in good condition in the west, where it is being worked the third time; in many central and eastern counties, where the stands were injured by worms, the crop has not grown very rapidly, though it is improving; in the southern portion of the State laying by corn has commenced, with some of it in silk and tassels. Planting corn on lowlands is being rapidly advanced. Tobacco is reported to be in good condition, though growing slowly. Cutting wheat continued through the week, and reaping was reported to have commenced in some of the counties. Field peas are being planted in most counties. Peanuts look well, but poor stands are reported in some northeastern counties, where the weather has been very dry and rain is needed. Gardens continue to do well. Irish potatoes set in the ground in many counties, and good stands of sweet potatoes have generally been secured. Melons are poor. A fairly large crop of peaches is promised, but apples have largely fallen from the trees and a poor crop is indicated.

Rains reported: Goldsboro, trace; Newbern 0.28, Weldon 0.06, Wilmington 0.10, Hatteras 0.20, Nashville 0.86, Greensboro 0.22, Raleigh 0.36, Marion, trace; Settle 0.09, Charlotte, Asheville and many other points reported no precipitation.

Trolley Project.

It is learned that F. H. Fries and his associates will rapidly push the building of the railway from Winston-Salem southward to Wadesboro. There appears to be a very good prospect of the building of a trolley line on the turnpike under construction between Wilkesboro and Jefferson. There is ample water power conveniently located. It is said the road can be built for \$300,000. The turnpike is not macadamized. It is so well graded that it has cost \$25,000 a mile on an average so far, for construction, and the heaviest grading has been completed. It seems to be a sort of impression that the Southern, the Norfolk & Western, and the Seaboard Air Line are making a race to get into Southport and it is very certain that more attention has been directed recently to the latter place than ever before.

North State News.

Major J. H. Melver has resigned his position as superintendent of the convict force at work on the Enterprise Lumber Company's road, and left last Friday to join his family in Greensboro. He is succeeded here by Mr. Waddell, who arrived last week. Mr. Melver has been in the service of the State for twenty-five years. He made many friends here who regret his departure.

Butler Buys Newspaper Plant.

"The Daily Industrial News will begin publication in Greensboro, July 1st. You may announce that," said ex-Senator Marion Butler, director in the company, Saturday evening as he left for a visit to Samson county. Mr. Butler had just returned from New York, where he completed the purchase of the newspaper outfit. Besides buying three linotype machines he closed a deal for \$15,000 Goss press which will print a 16-page paper. The paper's equipment cannot cost less than \$20,000. The impression has been made here and in New York, that the Industrial Company has strong financial backing.

Crushed Under Tons of Dirt.

Winston, Special.—Mr. W. S. Wallace, foreman of the sewer and water connection force, was killed in a cave-in while assisting in tapping the water main for the Imperial Tobacco Company's factory. He was in the ditch feeding the drill for the connection when nearly a ton of dirt fell on him and crushed his skull against the iron water pipe. His skull and collar bone were fearfully crushed and death resulted instantly.

MAY ESTABLISH BIG VINEYARDS

Northern Men Interested in Large Investments Near Fayetteville.

Fayetteville, Special.—The Southern Real Estate Company has sent to a company of Northern capitalists specimens of Cumberland county soil adapted to viticulture. The company has already sent an agent here and purposes the planting of a very large vineyard, with an expenditure of about \$200,000, if a body of land can be found giving thorough satisfaction. That Cumberland county is an almost ideal grape-growing section is shown in the large vineyard, "To Kay," said to be the most extensive east of the Rocky Mountains, owned by Col. W. J. Green, and now leased to the Messrs. Garrett, of Weldon; "Happy Valley," the property of Mr. G. W. Lawrence, and "Bordeaux," owned by Mr. J. M. Pearce, besides smaller vineyards, with many individual cultivators of the vine. Large areas of the county meet the requirements for a successful grape-growing country—rolling surface well watered, loam mixed with sand, and sub-clay. These qualities were recognized over fifty years ago by the first grape-growers, Henry L. Myrover and W. T. Horne, who planted "To Kay." Dr. D. W. C. Benbow, afterwards of Greensboro, and Dr. Scott. Information has been received here that the matter of the location of the State test small fruit farm, which it was thought, has been definitely fixed at a point near Wilmington, has been re-opened, and Mr. E. R. Rose, secretary of the chamber of commerce has written to Commissioner of Agriculture Patterson, asking that Fayetteville have a hearing on the subject; that it combines advantages for such a farm surpassed nowhere else in the State.

Held Up by Two Negroes.

Wilmington, Special.—On a country road, some distance from any residence, two miles from the city, Saturday afternoon in broad open daylight, John Milliken, of this city, was set upon by three negroes along the roadside and robbed of \$103 in money and a number of valuable papers. Mr. Milliken had gone into the country to pay some hands whom he had at work in the creek bottoms cutting timber. While he was passing the three negroes, who were armed with pistols, sprang upon him, two of them clutching him by the throat and beating him to the ground, while the third, with drawn pistol went through the victim's pocket, securing the money and papers. Mr. Milliken had no weapon and was powerless in the hands of the ruffians who choked him almost into insensibility. After relieving him of what he had, the negroes insolently told the white man to go on about his business while they proceeded in the woods along the railroad track toward Scott's Hill. Mr. Milliken hurried to town and reported the matter to the police, but they were unable to hear anything of the negroes.

Y. W. C. A. Conference.

Asheville, Special.—The summer student conference of the Young Women's Christian Association in session at Kenilworth Inn, is the largest attended of any previous conference. The morning session began with the mission study conference, followed by the Bible classes from 9 to 10 o'clock. In beginning her course in Exodus Sunday morning, Miss Blaisdell addressed herself to the consideration of the first two chapters of the book from the standpoint of Moses' choice and natural equipment. The session closed at 11 a. m. with the city student conference and from 10 to 11. From 4 to 6 in the afternoon the Carolina division received the other delegations. There were vesper on the lawn at 7:30 p. m., conducted by Miss Bridges. Dr. Egbert Smith, of Greensboro, delivered an address at 8 o'clock at night and the delegations were held from 9 to 9:30.

Lieut. Blaisdell Drowned.

Newbern, Special.—Word has reached here from New Orleans of the mysterious drowning of Lieut. W. T. Blaisdell, of the United States revenue cutter service at New Orleans on the night of June 5th. Lieut. Blaisdell was an officer on the revenue cutter *Boutwell*, stationed at Newbern, and was well known here. His death has created much regret. He was a valued officer and made many friends. He was a resident of Newbern for six months.

Change in Call on Banks.

Washington, Special.—The Secretary of the Treasury announced that the payment of the second installment of the public deposits called from depository banks will not be required on July 1, the date named in the call, but may be made by the banks at any time on or before July 15. The purpose of this change in the date of payment is to separate the transfer of funds of the Treasury from the heavy payments of dividends and interest falling due on the first of July. The unpaid portion of the second installment to be paid by the banks to the Treasury is about \$12,000,000.

TWO STRIKE VICTIMS

Little Abatement in Trouble Between Teamsters and Employers

RIOTING IS RENEWED IN CHICAGO

Union Teamsters Gashes a Negro Driver's Head With an Axe, Cutting Off Several Fingers With a Second Stroke, and an Excited Negro Policeman Shoots into a Crowd With Fatal Result.

Chicago, Special.—No proposals for peace came from either side to the teamsters' strike Saturday, and for the present the strike has settled down to a matter of endurance. John J. Farwell, Jr., in whose hands the employers have placed their case, as far as peace negotiations are concerned, said Saturday afternoon that no overtures would be made to the teamsters at any time hereafter. The employers are willing, he said, to meet the men at any time, but no more proposals will be made to them.

The Teamsters' Joint Council held a short meeting, at which terms of settlement were considered, but nothing was done.

John C. Driscoll, formerly secretary of the Team Owners' Association, who has been anxiously sought in connection with the suits brought against President Shea, of the Teamsters' Union, by George B. Thorne, who alleges criminal libel, has returned. President Shea declared that he was offered \$10,000 by Thorne, through Driscoll, to call a strike on Sears, Roebuck & Co. Driscoll denied positively that he had any knowledge of the affair. He will appear before the grand jury Monday.

Secretary Sincere, of the Employers' Association, declared that as far as doing business was concerned, the strike is over. The employers have 2,300 teams in service and are doing almost a normal amount of traffic.

Saturday evening, while Frederick Jones, a colored teamster, who was unloading some lumber at an unemployed building at West Eighteenth and Sangamon streets, a mob numbering 1,000 men, women and children, gathered around him and commenced to throw stones and other missiles. Policemen Benoit, Schenck, and others were guarding the wagon, drew clubs and attempted to drive back the mob, both officers being struck several times with stones. While the trouble was at its height, John Hines, a union teamster, came up to Jones when he was stooping over throwing off some lumber, struck Jones over the head with an axe, cutting a gash in his scalp three inches long. A second blow finished him. One other non-union workman was killed.

Thanks the President.

St. Petersburg, By Cable.—Paris is Russia's choice as the place for opening peace negotiations. If Japan insists upon Manchuria or Washington, Russia doubtless will agree, but Paris is preferred and the Emperor already prepared to issue instructions to M. Nelidoff, the ambassador to France, to act as plenipotentiary to receive the Japanese conditions.

The Russian government has communicated to the administration at Washington its consent to publication of Russia's reply to President Roosevelt's appeal, at the same time thanking the President warmly for the friendly and lofty spirit in which it was conceived.

It is now possible to give some additional interesting details of the extraordinary council presided over by the Emperor, which met recently at Tsarskoye-Selo, and at which the practical, although not the final decision was taken to terminate the war if the conditions were not too onerous.

Gen. Boynton's Successor.

Washington, Special.—Secretary Taft has appointed Gen. Carlisle as chairman of the Chickasaw Military Park Association to succeed the late Gen. H. V. Boynton. General Carman was colonel of a New Jersey regiment during the civil war, and was brevetted a brigadier general.

"WICKEDNESS IN HIGH PLACES."

The following is from the last issue of the Asheville Register:

"It is gratifying to see that the Honorable Augustus W. Machen who left the West Virginia penitentiary and donned a silk hat and spike tail coat to stand a second trial in Washington on the charge of defrauding the government has had a couple of years added to his former sentence. The apostle Paul objected to 'wickedness in high places' as being especially inexcusable, and it is well that the men who have abused a public trust are at last getting their dues. The Honorable Mr. Machen will be remembered as the portly gentleman who addressed the Good Roads Convention in Raleigh two or three years ago, emphasizing specially the need of 'bridging the cracks.'"

This is the same Machen that was appointed in the Post-office Department by Grover Cleveland and was a civil service hold-over under President McKinley. He together with several other of the post-office grafters have been sentenced to the penitentiary for defrauding the government and there are still others on trial who will most likely land in the penitentiary. This is the way the national government treats grafters.

Not long ago two United States Senators and a Congressman were indicted for certain irregularities. Their cases are under investigation, and if found guilty will, of course, be expelled from Congress.

There is a reported "leak" in the last cotton report by the government and it is said that certain information was given out in advance to cotton gamblers. As soon as this information reached the department an investigation was begun to find out who had leaked the report, and several clerks have been suspended awaiting the result of the investigation.

But how is it in our State under Democratic "good government." When there is a report or irregularities in the office of any Democratic official the yellow journals of this State try to muddy the waters and cover up the crime or irregularities. When the investigation of corruption of the management of the A. & N. C. road was being held in New Bern last year the proceedings were behind closed doors and the findings of this committee have never been given to the public. While the last Legislature was in session articles were published in papers in Raleigh charging irregularities in the office of Labor Commissioner, yet the affairs of his office were never investigated. And why? Was it because he is a good party worker in the Democratic ranks?

Not long ago a Democratic lawyer, who is holding a lucrative position, who is supposed to help enforce law, used his influence to keep a violator from behind prison bars. And yet very little was said about it in the democratic press and now they are lauding him to the skies.

Why didn't the democrats have an investigation of this case? Was it because he had helped to lead the party to victory by inciting drunken red-shirts to do their devilment? If this had been a Republican official he would have been impeached for high crimes and misdemeanors.

Not many years ago it is said a state official sent a man out over the State, at the expense of the State, to gather statistics as to the cotton mills, the labor employed and the condition that existed around the mills. This information was intended for publication, but the report made by the man sent out to do this work did not please the State official as in some instances it reflected on the mill men and the agent was asked to rewrite his article, as it would hurt the party if he didn't. This he would not do, so the State official wrote in his own office such a report as he wanted to go out to the public and had it printed. And the State had to pay all this expense for a report that did not state the facts. And yet this same man is to-day holding an office of public

trust under democratic "good government."

And when election thieves were indicted the democrats passed a law to protect them in their diabolical crime. This is the kind of "good government" the tax-payers are paying their hard earned money to support to-day. Tax-payers do you want more of this kind of government?

THE NEED OF HONEST JURIES.

Of late the News and Observer has contained several editorials on the need of revising the jury box, so that the name of every good citizen could be put in the jury box. Not until late have we ever seen one line in the News and Observer as to the need of honest juries. Haven't we needed them for the past eight years just as much as we do now? Why didn't the News and Observer favor honest juries in 1898 and 1900? Was it afraid that if all the juries were honest that some of its party henchmen would now be safe behind prison bars?

Of course it is better late than never, but again we ask why hasn't the News and Observer been in favor of honest juries for the past eight years. There must be a reason.

The following on this subject from Justice in the last issue of the Union Republican strikes the keynote:

"Bro. Josephus Daniels and I have gotten together at last, or nearly so on at least one subject, and that is honest juries. I have been wanting them all the time. I wanted them when we had that travesty upon justice, the Teague and Boyer trial. I wanted them when I helped to pass the law in 1897 to revise the jury list. I wanted them when the Ku Klux amnesty act was passed. I wanted them when Sec. 1090 was repealed to save election thieves. I wanted them when the election cases from this county were not prosessed. I wanted them to investigate and try the Wilmington murder cases. I wanted them to investigate and punish the assault on Seawell, when he was assaulted and driven from Laurinburg. I wanted them to try all outrages from ballot-box-stuffing to murder, that have cursed our State since the war, but up to this time while I was wanting honest juries for the above purposes, the News and Observer and other Democratic papers were upholding and applauding criminals and helping to pass laws to protect them, such as statutes of limitation, amnesty acts, or the repeal of criminal laws."

Bro. Daniels has seen a new light or something has gotten right or wrong in him as will more fully appear from the following taken from his editorial of June 3rd:

"The name of a bad man is out of place in a jury box. His interest is to protect crime, to let fraud go unrestrained, to let down the bars; take off the lid, have a wide open county, every man looking out for himself, Satan taking the hindmost. The man who runs a blind tiger or a blockade still ought not to be on the jury list. The vagrant, bum or loafer, who has no visible means of support and relies upon his wife and children to support him, has no business being on the jury. Neither the man who gives nor the man who receives bribes or graft has a place in the jury box. Men who encourage violation of the laws they don't like are not good and lawful men and ought not to be in the jury box."

As I said in the beginning we are getting pretty close together on this subject, but I would add to his list a few more classes whose names should be left out of the jury box. I would say leave out the name of every man who ever bought or sold a vote directly or indirectly; the name of every man who cast or procured the casting of an illegal ballot, or who kept a legal vote out of the box; the name of every man who filled out and certified to a false election return, and as the receiver is as guilty as the thief, the name of every official who held an office procured by such fraud; the names of every editor, owner, or correspondent of a newspaper that condoned, upheld or encouraged frauds and crime of any character; the names of every man who ever wore a red-shirt or broke up a political meeting; the name of every man who took the Ku Klux oath, or who appeared as witnesses to prove alibi for Ku Klux, or to put the matter, or any idea of the matter, in a few words, leave the name of every man out of the jury box who has failed to keep his oath in the past, whether it be a witness, a juror, or a citizen, in which is included his oath to support the constitution and the laws of the State of North Carolina and of the United States, which gives to every man equality before the law in everything."

One of our readers at Magnolia, in a letter to the editor of The Caucasian a few days ago said: "I can't do without the Caucasian, or some paper that tells the truth, and it does it up right." Get in the habit of reading the Caucasian and you will find you can't do without it. Try

LAWLESSNESS—CAUSE AND EFFECT.

The following item is from Webster's Weekly, published in Rockingham county:

"We must confess that Rockingham county for the past six or seven years has been establishing an unenviable record for murders and homicides. There is something wrong with the administration of justice in our county; human life is held too cheap."

The editor of the Weekly should first look at the cause and then the remedy.

Six or seven years ago we had red-shirt rule in North Carolina, and isn't it possible that Rockingham county is now reaping the results of such rule. Aycock, the great "Educational Governor," said that "under Fusion Rule crime stalked abroad at noon-day, sleep lay down with alarm and the sound of the pistol was more frequent than the song of the mocking bird." But what was the condition during his administration? The records show that more crimes were committed in this State during his term of office than ever before for the same period since Reconstruction Days. And could anything else have been expected when we consider the condition of affairs that were brought about in this State to put him and his crowd in office. When the lives of Populists and Republican speakers were threatened if they filled their appointments, when the speakers stand was torn from under them, when stale eggs were thrown at them, when their rooms were broken into at the dead hour of the night and the speaker forced to leave town at the point of pistols and when even men were shot down by rowdies, is it any wonder that we have had a reign of lawlessness in this State ever since.

These crimes were committed by drunken red-shirt and rowdies, armed with pistols and winchesters, which crimes were, in some cases instigated and in most all, countenanced by the leaders of the Democratic party. It will certainly take a "Campaign of Education" to teach these fellows that it is not right to shoot down their fellow-men. And as a further remedy it would be well to revise your jury box.

In our news columns this week will be found an account of the proceedings in the Federal Court at Raleigh. This article tells how a "neighborhood" distillery was operated, for about six years near the sheriff's home in this County, with out molestation until a dozen of the operators were bagged by the Federal officers, and are now resting behind prison bars.

Now the news comes, from a democratic source, that an application will be made to Judge Purnell to change the sentence so these men can go home and work their crops. And why? Is it in order that they may return home and make more corn to run another neighborhood distillery?

Men who desire to work their crops should do so while they have the opportunity, instead of operating blockade stills, which is supposed to be a violation of the Watts law, as well as a violation of the Federal law.

Since when has the News and Observer been in favor of honest juries in this State? If its editor was in favor of honest juries in 1898 and 1900 he did not say so by word or action. And why? There must have been a reason.

Can any one approximate the date when the editor of the News and Observer had a change of heart as to the need of honest juries in this State?

Democratic Good Government

In commenting upon the "comprehensive review" of the financial condition of the city of Charlotte, the Charlotte Observer charges "looseness, wastefulness and extravagance." We can hardly expect city authorities to do much better than the State authorities when they are in line politically and get their "theories of government" from the same source.—Union Republican.

PROCEEDINGS IN FEDERAL COURT

A FLAGRANT FAILURE OF STATE OFFICERS TO ENFORCE THE WATTS LAW.

A Neighborhood Distillery Operated in Wake County Near the Sheriff's Home. Church Members Were Stockholders—Other Cases Disposed of in Federal Court.

Federal Court has been in session in Raleigh for several days and many violators of the law have been put behind prison bars, and still others to follow. The most sensational case that has been before the Court was one from Cedar Fork township, Wake County. The evidence in Court showed that a neighborhood blockade distillery had been in operation about six years within a short distance of Sheriff Page's home, and that the operators talked about their still on Sundays at Sunday-school. Yet it remained for the Federal officials to bag the crowd.

The following is an account of the case as taken down by a reporter of the Post:

"The fact that a 'neighborhood' blockade distillery has been in operation for three years past in one of the most thickly settled sections of Cedar Fork township came to light yesterday in the federal court and elicited a sharp criticism from Judge Purnell, who said in passing judgment on the offenders:

"This case is proof of what the newspapers have been saying and what is generally reported, that the state officers will not enforce the Watts law. Here was a distillery operated for three or four years in the township where the sheriff lived, surrounded by constables and magistrates whose duty it was to enforce the state law, and yet not one of them took any steps to break up the distillery which, according to the testimony, was talked at the Sunday-schools, churches and other meetings of the township and seems to have been notorious. And yet they left it to the federal officers to break up what is a nuisance to our community. This court is not called upon to enforce the state law but it will enforce the federal law."

The judge then sentenced the prime movers in the scheme to four months in jail and fines of \$100 and costs each, and their hirelings and stockholders to thirty days and \$100 each and costs.

The evidence showed the remarkable state of affairs the distilling outfit had been bought in Durham County by J. H. Moring, brought into the Cedar Fork neighborhood and operated by him through the two negroes, Dan Jones and Andrew Shaw. The testimony was that whiskey was not distilled for sale but only for consumption by parties having distilling done. Anyone who desired and would take as much as one dollar's worth of stock in the distillery, this being to make him personally liable as a distiller, could carry meal and have it distilled into whiskey, paying the two negroes 50 cents a bushel for operating the distillery.

Each of the men implicated in the case made statements to the court, acknowledging his connection with the distillery and appealing for mercy.

Several of the men testified that the existence of the distillery was generally known, and in answer to the question by District Attorney Skinner as to whether sheriff and other county officers knew of it, said it was generally talked of in the neighborhood, at Sunday school, church and other public gatherings. Andrew Shaw, one of the negro operators, testified that several of the church members of the neighborhood had stock in the distillery in order to have the whiskey made for their personal consumption.

The men implicated and sentenced in the case are: J. Henry Watkins, Sidney Moring, J. Cephus McGee, James W. Watkins, Sidney Watkins, Marcellus Moring, Joe Arnold, Dan Jones, George Stone, Andrew Shaw.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable record—a breathing, thinking, moving monument, composed of human lives,—that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following:

"I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath after any little exertion, palpitation of the heart; and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and immediately went to my druggist and purchased two bottles of the Heart Cure, and took it according to directions, with the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy to my friends who have heart trouble. In fact I am a traveling advertisement for I am widely known in this locality."

Casting for Bass by Moonlight.

I suppose the average bait caster
knows very little of casting by
moonlight, but to my mind this is
a most pleasurable way of fishing.
The very weirdness and uncertainty
constitute its chief charm, for the
more uncertain a thing, the greater
the satisfaction when it is accom-
plished.

For this particular fishing, a lance
wood bait-casting rod between five
and six feet in length, a good dou-
ble multiplying reel, about fifty
yards of No. 5 Kingfisher silk line
and a surface casting bait make an
ideal combination. Confirmed fly-
casters often ridicule the bait-caster
with the stubby rod, but I have
used both and it takes fully as much
skill and practice to manage the
short rod as the long, whippy one,
and bait-casting offers a much larger
field and larger variety of fishing
than fly-casting. A surface bait
should always be used, as a bass
strikes at the commotion made by
the bait, not because he is hungry,
but merely because he wants to fight.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind,
discourages and lessens ambition; bet-
ter, vigor and cheerfulness soon disappear
when the kidneys are out of order or dis-
eased.

Kidney trouble has become so prevalent
that it is not uncommon for a child to be
born afflicted with weak kidneys. If the
child urinates too often, if the urine scalds
the flesh, or if, when the child reaches an
age when it should be able to control the
passage, it is yet afflicted with bed-wet-
ting, depend upon it, the cause of the diffi-
culty is kidney trouble, and the first
step should be towards the treatment of
these important organs. This unpleasant
trouble is due to a diseased condition of
the kidneys and bladder and not to a
habit as most people suppose.

Women as well as men are made miser-
able with kidney and bladder trouble,
and both need the same great remedy.

YOUNG MAN FATALLY SHOT.

A Drunken Rowdy Causes Reign of Ter-
ror at Paint Rock.

Paint Rock, N. C., June 12 —
Last evening Dolph Gilbert, a white
man, while drunk; shot and danger-
ously wounded Tillman Hutson, a
very inoffensive young man of this
place. Hutson is not expected to
recover. Nothing has ever taken
place in the county that has so
stirred the people of this community
Gilbert, it seems, began looking for
trouble early Sunday morning. Gil-
bert first tried to shoot Frank Lamb,
but Lamb getting the drop on him,
saved himself. Next he began a
row with one Ricker, who worsted
him with a whiskey bottle. He
then came to the passenger depot
and began abusing Hutson, drawing
his pistol and threatening to shoot
if Hutson moved. In abusive lan-
guage he ordered Hutson to march
up and down the railroad track in
full view of a large crowd, at the
same time holding all others at bay
with his gun, thence to the waiting
room, where he shut the door, shoot-
ing Hutson.

Not contented with this, the in-
human monster marched Hutson up
a small creek half a mile, where the
wounded man gave out. There Gil-
bert forced Hutson to drink a quan-
tity of whiskey, threatening to shoot
him if he again refused. Seeing that
Hutson was badly wounded, Gilbert
left him, saying that he would go
for a doctor, and if Hutson moved he
would return and finish the now
prostrate man.

Sheriff Meyers went in pursuit,
overtaking Gilbert near the State
line, and when he ordered Gilbert
to give up the fleeing man made an
effort to shoot Meyers, and was only
prevented by a bystander, who was
talking to Gilbert when the sheriff
came up. Meyers hurried his man
to jail to keep the father of Hutson,
who is a dangerous man, taking
vengeance.

If Hutson dies there will be a
regular feud between the Hutsons
and the Gilbert families.

Men to be Executed at Marshall on Au-
gust 1.

Asheville Register.]

Two men are in Buncombe County
jail who will be executed on Au-
gust 1, unless the Governor inter-
feres. Both men are white and both
are to die on the gallows for rape.
Charlie Stein is one of the condemned
men. There seems to be some
sympathy for him among those who
are familiar with the facts in the
case, and it is probable that an effort
will be made to have the Governor
commute the sentence to life im-
prisonment. The other, Peter Smith,
has no sympathy of the people
whatever. He is an old and hard-
ened criminal, according to popular
belief. He is about sixty-five years
of age. His victim was a young girl
about fifteen years old. It is said
that he committed the same offense
on the person of his stepdaughter
some years ago, and then killed the
girl to hide his crime. He burned
her body, but her head was found.
He was tried for the crime, but the
jury acquitted him, the evidence not
being sufficiently strong to warrant
a conviction. Smith and Stein were
tried and convicted a few months
ago in the Madison County Superior
Court. Appeals were taken to the
Supreme Court. The cases were re-
viewed by the tribunal recently, and
the verdict confirmed. Governor
Glenn fixed August 1, as the day of
execution.

turned up in the person of Mrs. J.
W. Guder, of Davidson, N. C. She
writes the Landmark and corroborates
the statements of others.

It is said that rocks frequently
fell on the roof of the houses as if
from a great height. Often they
would go through windows and
break dishes and other things in the
house.

One day a man by the name of
Parker took a piece of chalk and
marked a rock lying some distance
from the house. He returned to the
yard and in a few minutes the
identical rock fell in the yard near
his feet.

Mrs. Guder says that the cloth-
ing of Mrs. Day caught on fire sev-
eral times when she was not near
any fire. One day she was sitting
in a room sewing. There was no
fire at all in the room. Suddenly
a cap she had on her head flashed
into a blaze and was consumed.

Thus we have it from apparently
reliable people that the Day house
was really haunted, and that there
were no natural causes for the fall-
ing of the rock or the fires. What
are you going to do about it? We
do not believe in "haunted houses."
Yet, there are people who do and
they seem to tell the truth.

Trials of Motherhood

80 Broad Street,
Philadelphia, Pa., June 12, 1903.

I suffered for nine years with ovarian troubles making life a burden to myself as well as to my family. During that time I had two miscarriages and although we longed for a child to bless our home this seemed impossi-
ble. I had constant racking bearing-down pains in the pelvic organs and a
pulling through my limbs with frequent headaches. I felt sick at my
stomach and vomited frequently and no medicine helped me until I tried
Wine of Cardui.

Then my general health improved, the pains gradually lessened and
after six weeks I was well. I am now the happy mother of a boy eighteen
months old and my husband joins me in sending heartfelt thanks to you
for your splendid medicine.

Without, I would have been a childless, instead of a happy
and well mother.

—Mrs. E. E. Hurlinger
CHAIRMAN, DR. ANKER'S ASSOCIATION.

WINE OF CARDUI

Wine of Cardui is the most successful menstrual regulator. By
regulating menstruation, Wine of Cardui banishes inflammation
from the entire female organism and the strengthened ligaments
bring the organs back to their proper place. This is what Wine
of Cardui did for Mrs. Hurlinger. It banished the racking pains and
burning inflammation and brought her relief. She was restored to
health and strength and gives Wine of Cardui the credit of making
her able to become a happy mother. This medicine equips a woman
for every duty of wifehood and motherhood. There are many suf-
fering women who think that health can never be theirs because they
cannot secure the services of a great specialist, but we want to say
right here that while Mrs. Hurlinger lives in Philadelphia, a great
medical center, she depended on Wine of Cardui for a cure and she
was cured. This same medicine is within your reach. Will you
take it?

THE CAUCASIAN

RALEIGH, N. C. June 1, 1904
Entered at the Post Office in Raleigh, N. C. as second-class matter.

The fifteenth reunion of the United Confederate Veterans opens in Louisville, Ky., to day.

The annual session of the North Carolina Teachers' Association is in session in Greensboro this week.

Mr. J. C. Ellington, of Raleigh, died suddenly Tuesday afternoon. He was Senator from Wake County in the last Legislature.

The famous Gattis-Kilgore suit is again on trial in the Superior Court in Raleigh this week. There have been no facts of interest brought out so far.

A negro named Chas. Mitchell, who lived near Windsor, Bertie County, was placed in jail Tuesday on the charge of murdering and burning his wife's body.

The Caucasian is the best weekly paper in the State. Subscribe and get the latest news. Only \$1.00 per year.

A convict from Burke County, named J. T. Rogers, alias Lackey, made his escape from the convict camp near Wilkesboro, June 7th. He was sentenced in 1902 for seven years for larceny.

The Republican daily which will soon be started at Greensboro, has caused the democratic papers much uneasiness and has caused the editors of these papers to stay awake at nights writing venomous articles trying to fool the people as to the object in starting the new daily. They have lied about it hoping to kill it in its infancy. But you just wait until it grows some and it will make those editors see stars, who have tried to vilify it.

Casting for Bass by Moonlight.

I suppose the average bait caster knows very little of casting by moonlight, but to my mind this is a most pleasurable way of fishing. The very weirdness and uncertainty constitute its chief charm, for the more uncertain a thing, the greater the satisfaction when it is accomplished.

For this particular fishing, a lance wood bait-casting rod between five and six feet in length, a good double multiplying reel, about fifty yards of No. 5 Kingfisher silk line and a surface casting bait make an ideal combination. Confirmed fly-casters often ridicule the bait-caster with the stubby rod, but I have used both and it takes fully as much skill and practice to manage the short rod as the long, whippy one, and bait-casting offers a much larger field and larger variety of fishing than fly-casting. A surface bait should always be used, as a bass strikes at the commotion made by the bait, not because he is hungry, but merely because he wants to fight. —C. L. Dewey in June Recreation.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

YOUNG MAN FATALLY SHOT.

A Drunken Rowdy Causes Reign of Terror at Paint Rock.

Paint Rock, N. C., June 12—Last evening Dolph Gilbert, a white man, while drunk; shot and dangerously wounded Tillman Hutson, a very inoffensive young man of this place. Hutson is not expected to recover. Nothing has ever taken place in the county that has so stirred the people of this community as Gilbert, it seems, began looking for trouble early Sunday morning. Gilbert first tried to shoot Frank Lamb, but Lamb getting the drop on him, saved himself. Next he began a row with one Ticker, who worsted him with a whiskey bottle. He then came to the passenger depot and began abusing Hutson, drawing his pistol and threatening to shoot if Hutson moved. In abusive language he ordered Hutson to march up and down the railroad track in full view of a large crowd, at the same time holding all others at bay with his gun, thence to the waiting room, where he shut the door, shooting Hutson.

Not contented with this, the inhuman monster marched Hutson up a small creek half a mile, where the wounded man gave out. There Gilbert forced Hutson to drink a quantity of whiskey, threatening to shoot him if he again refused. Seeing that Hutson was badly wounded, Gilbert left him, saying that he would go for a doctor, and if Hutson moved he would return and finish the now prostrate man.

Sheriff Meyers went in pursuit, overtaking Gilbert near the State line, and when he ordered Gilbert to give up the fleeing man made an effort to shoot Meyers, and was only prevented by a bystander, who was talking to Gilbert when the sheriff came up. Meyers hurried his man to jail to keep the father of Hutson, who is a dangerous man, taking vengeance.

If Hutson dies there will be a regular feud between the Hutsons and the Gilbert families.

Men to be Executed at Marshall on August 1.

Asheville Register.] Two men are in Buncombe County jail who will be executed on August 1, unless the Governor intercedes. Both men are white and both are to die on the gallows for rape.

Charlie Stein is one of the condemned men. There seems to be some sympathy for him among those who are familiar with the facts in the case, and it is probable that an effort will be made to have the Governor commute the sentence to life imprisonment. The other, Peter Smith, has no sympathy of the people whatever. He is an old and hardened criminal, according to popular belief. He is about sixty-five years of age. His victim was a young girl about fifteen years old. It is said that he committed the same offense on the person of his stepdaughter some years ago, and then killed the girl to hide his crime. He burned her body, but her head was found. He was tried for the crime, but the jury acquitted him, the evidence not being sufficiently strong to warrant a conviction. Smith and Stein were tried and convicted a few months ago in the Madison County Superior Court. Appeals were taken to the Supreme Court. The cases were reviewed by the tribunal recently, and the verdict confirmed. Governor Glenn fixed August 1, as the day of execution.

A Weird Story.

Raleigh Enterprise. Recently an item appeared in a Maryland paper giving an account by an alleged eye witness, of strange doings at the home of Mr. Louis Day, in Ireddell County, this State, many years ago—in 1842.

The witness, Mr. J. R. Turner, stated that the house was "haunted," and described some of the visitation of the "haunt." The Statesville Landmark published Mr. Turner's statements, and another witness has turned up in the person of Mrs. J. W. Guder, of Davidson, N. C. She writes the Landmark and corroborates the statements of others.

It is said that rocks frequently fell on the roof of the houses as if from a great height. Often they would go through windows and break dishes and other things in the house.

One day a man by the name of Parker took a piece of chalk and marked a rock lying some distance from the house. He returned to the yard and in a few minutes the identical rock fell in the yard near his feet.

Mrs. Guder says that the clothing of Mrs. Day caught on fire several times when she was not near any fire. One day she was sitting in a room sewing. There was no fire at all in the room. Suddenly a cap she had on her head flashed into a blaze and was consumed.

Thus we have it from apparently reliable people that the Day house was really haunted, and that there were no natural causes for the falling of the rock or the fires. What are you going to do about it? We do not believe in "haunted houses." Yet, there are people who do and they seem to tell the truth.

This column will be devoted each week to communications and general news pertaining to Sampson County.

Mr. N. G. Duncan went to Raleigh Friday on business.

Hon. Marion Butler spent Sunday with his family at Elliott.

We received more news from Sampson for this issue but not in time to set up for the paper.—E. I.

The Importance of Being Somebody.

Society was created by simpletons that satraps might live in it; and to live, really live, although at first blush it may seem a very general occupation, is, on the contrary, curiously rare. Few there are that live. The existence of the bulk of humanity is comparable to that of ants. It is just as anonymous, quite as obscure. To escape from the horrors of that obscurity, to climb, however transiently, into view, to be obvious, to have a name, though it be a bad one, men have gone to the scaffold, occasionally to the altar and thence back again to the obscurity from which they came. Yet that, perhaps, is better than nothing. It may be dreadful to have your name in the papers; it is still more dreadful not to. To see it there is really something; but to see yourself caricatured is success. Only celebrities are lampooned.

Conceit is not appreciated at its true value, except by the French, who have such a pretty name for it. They call it amour propre, which, to them, is one of the cardinal virtues, and should be to you. For it admonishes you to think well of yourself. If you omit to who in the world will do it for you? If you do not look as though you owned the earth who can do it in your stead? Assert yourself. That is the way to get on. If one plan fail, try another—try a dozen others. Through them all assume a superiority, though you have it not. Insist on being somebody.

Otherwise your name will appear in the papers but once—but once—and the world will learn of your existence only through hearing that you are dead. What is worse, it will not care, even then. Think of the martyr who discovered that modesty is its own reward. His name is lost, his identity forgotten. He was too retiring by half, in addition to being nobody. Of all obituaries that is the limit.

Insist, then, on being somebody. It is not only important, it is easy. You can fool everybody but yourself.

—EDGAR SALTS,

In July Smart Set.

NO SECRET ABOUT IT.

It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at all drug stores.

The Supply Exhausted.

An enterprising Atlanta store recently advertised "everything that the world be bride needs," and an Augusta woman wrote on to the store for a man.

HUGE TASK.

It was a huge task, to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, La., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. Guaranteed by all Druggists Price 50c."

Not Fatal.

No Matter What Doctors Say—We Know That Heart Trouble in Many Cases Can Be Cured.

There are seven main features of heart disease, viz.: (1) Weakness or Debility; (2) Rheumatism or Neuralgia; (3) Valvular Disorder; (4) Dilation; (5) Enlargement; (6) Fatty Degeneration; (7) Dropsy.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

Patients often have no idea their disease is heart trouble, and assume it to be Indigestion, Liver Complaint, etc. Here are some of the symptoms: Shortness of breath after exercise. Smothering Spells. Pain in Chest, left Shoulder and arm. Discomfort in Lying on one side. Fainting Spells. Nervous Cough. Swelling of Feet and Ankles. Paleness of Face and Lips. Palpitation. Nightmare. Irregular Pulse.

"I have great faith in Dr. Miles' New Heart Cure, and speak of its merits whenever opportunity presents. I can now go up and down stairs with ease, where three weeks ago I could hardly walk one block." One year later—"I am still in good health, the Heart Cure did so much for me, that I find it a far greater medicine than what I claimed it to be."—S. D. YOUNG, B. NOTHING BUT SHOES

Farming For PROFIT

There is nothing too good for the Farmer; there is nothing too good for the Farm. Good barns, good houses, good wells, good fences, good stock, all on good land, under good management assure good profits. The good applies throughout. It must apply throughout, or it will not apply to profits.

Nowhere is discrimination more necessary than in the selection of fences. The farm must be fenced. Hence, select the best fence, the ELLWOOD FENCE.

The Ellwood is built like a bridge—braced, supported, tied; no stronger or more substantial structure possible. Ellwood fences will hold your hogs, cattle, horses, and poultry. Ellwood Fence has always been popular. It answers all purposes and never disappoints.

We have Ellwood Fences for sale, and at prices that will suit you. Come and see us—we have a bargain for you.
